

S-180 CUSTOM PUMPER

What you want. When you need it.

ROAD READY IN 12 MONTHS OR LESS*

S-180 pumpers are modular-designed trucks that start with the most commonly selected features to streamline the process while still allowing customization to meet your department needs. These custom trucks deliver the strength, safety and performance that departments, both large and small, require. S-180 pumpers are built on the trusted Metro Star® chassis and paired with an authentic Spartan body. With faster order to delivery and long-term durability, S-180s can be ready in 12 months or less* with no compromise to Spartan quality.

KEY FEATURES

More Maneuverable

- Cramp angles of up to 53° make it easy to navigate tight or winding streets
- Designed for urban, suburban and combination department environments

Maximized Space Usage

- Full-depth and split-depth compartments with multi-purpose slide-out trays offer increased storage and easier access to tools

Industry-Best Safety

- Features Spartan's Advanced Protection System plus ergonomic controls and easy access to hoses and equipment

Low Cost of Ownership

- Features nonproprietary pump components and standard parts, making reordering easy and efficient

Best-in-Class Warranty

- 2-year bumper-to-bumper warranty, backed by Spartan's nationwide service and support network

At a Glance

- Built on the trusted Metro Star or FC-94 custom chassis
- Side-mount configurations
- 500, 750 and 1,000 U.S. gallon-tank capacity
- Available in multiple custom configurations
- Full-height compartmentation
- Maximized compartment space
- Waterous pumps
- Low hose bed models available

*Subject to availability and order intake.

PUTTING FIRST RESPONDERS FIRST.

S-180 CUSTOM AERIALS

What you want. When you need it.

ROAD READY IN 18 MONTHS OR LESS*

S-180 aerials are modular-designed trucks that start with the most commonly selected features to streamline the process while still allowing customization to meet your department needs. These custom trucks deliver the strength, safety and performance that departments, both large and small, require. S-180 aerials are built on the trusted Metro Star® and Gladiator® chassis, and paired with an authentic Spartan body and Smeal® ladders. With faster order to delivery and long-term durability, S-180 aerials can be ready in 18 months or less* with no compromise to Spartan quality.

KEY FEATURES

Mission-Matched Chassis and Aerials

- 77' Aerial: Spartan Metro Star or FC-94
- 107' Aerial: Spartan Gladiator

Trusted Smeal Ladders

- Built with the same proven Smeal aerial device technology trusted by departments across North America
- Delivers familiar climbing geometry, predictable aerial operation and proven performance

Best-in-Class Warranty

- 2-year bumper-to-bumper warranty, backed by Spartan's nationwide service and support network

Lightweight Design, Higher Payload

- Lightweight aluminum body reduces overall apparatus weight while maintaining structural integrity
- Carry more tools, more equipment and greater operational capability while staying within axle ratings and GVWR limits

At a Glance

- Custom Spartan chassis (Metro Star, Gladiator or FC-94)
- 77' and 107' aerials available
- Rear-mount aerial with optimized ladder storage nesting
- Available in multiple custom configurations
- Maximized compartment space
- Waterous pumps
- Platform models available
- No-pump/no-tank options available
